---

### Profile

Dynamic React Developer with over a year of hands-on experience in crafting engaging front-end solutions. Proficient in NextJS, TypeScript, and modern web technologies, consistently enhancing application architecture and functionality. Expertise in creating intuitive user interfaces and resolving visual issues to elevate user experience. Adept at collaborating on both frontend and backend tasks, demonstrating a strong commitment to delivering high-quality results. Eager to leverage technical skills and innovative mindset to contribute to dynamic development projects.

### Experience

Remote

#### React developer

Jan 2024 – Present

In "creaturismo" I worked mainly as Frontend with NextJS using the Mui components and occasionally as Fullstack with TypeScript

- Improve architecture for the frontend app
- File load and download - frontend
- Created PDF's with reactPDF
- API Calls and use of types
- Created new bd entities - backend
- Email templates - frontend (Strippo) and backend (React Email)
- Edit and create some endpoints - backend

Remote

#### Web Frontend

Oct 2023 – Dec 2023

DoubleYou was an application where you could talk to an AI as if it were your famous favorite, currently the project is abandoned

- Styling layout
- Project structure
- Minimal functionality
- Visual bug fixes

### Education

#### Metropolitan Autonomous University - Azcapotzalco

Mexico
